ABOUT THE ROLE

Join the merchant dashboard team building the tools that thousands of South African small businesses use every day to track sales, payouts and customers. You'll own end-to-end features from design hand-off to production.

WHAT YOU'LL BE DOING

- Build and ship React features in the merchant dashboard
- Collaborate with designers and backend engineers on new product flows
- Mentor mid-level engineers in code review and pairing sessions
- Improve performance, accessibility and test coverage of existing screens

MINIMUM REQUIREMENTS

QUALIFICATION
Bachelor's degree in Computer Science, Engineering or a related field

EXPERIENCE
5+ years
